

Boracay Island Beach

The 22nd International Conference on Dependable, Autonomic and Secure Computing (DASC 2024)

<http://cyber-science.org/2024/dasc/>

joint conference DASC/PICom/CBDCom/CyberSciTech 2024

November 5-8, 2024, Boracay Island, Malay, Philippines

Honorary Chairs

Tadashi Dohi, *Hiroshima University, Japan*

Frank Hsu, *Fordham University, USA*

Mohammed Atiquzzaman, *Univ. of Oklahoma, USA*

General Chairs

Zakirul Alam Bhuiyan, *Fordham University, USA*

Kenichi Kourai, *Kyushu Inst. of Tech., Japan*

General Executive Chairs

Moayad Aloqaily, *Mohamad Bin Zayed Univ., UAE*

Bernady O. Apduhan, *Kyushu Sangyo Univ., Japan*

Program Chairs

Wenjia Li, *New York Institute of Technology, USA*

Aniello Castiglione, *University of Salerno, Italy*

Program Co-chairs

Mohamed Rahouti, *Fordham University, USA*

Wei Wang, *Beijing Jiaotong University, China*

Adnan Anwar, *Deakin University, Australia*

Shan Jiang, *The Hong Kong Polytechnic University*

Changqing Luo, *Virginia Commonwealth Univ., USA*

Lei Chen, *Georgia Southern University, USA*

Workshop & Special Session Chairs

Preeti Mishra, *Doon University, India*

Arafatur Rahman, *University of Wolverhampton, UK*

WiP & LBI Chairs

Saqib Ali, *Univ. of Agri. Faisalabad, Pakistan*

Mrinal Kanti Bhowmik, *Tripura University, India*

Publicity Chairs

Mubashir Rehmani, *Cork Inst. of Tech., Ireland*

Junjun Zheng, *Hiroshima University, Japan*

Qin Liu, *Hunan University, China*

Senthil Kumar, *Mepco Schlenk Eng. College, India*

Dhomas Hatta Fudholi, *Universitas Islam Indonesia*

Yuhong Liu, *Santa Clara University, USA*

Steering Committee

Jianhua Ma, *Hosei University, Japan*

Laurence T. Yang, *St. Francis Xavier Univ., Canada*

Yuanshun Dai, *Univ. of Elec. Sci. & Tech. of China*

Tadashi Dohi, *Hiroshima University, Japan*

Zakirul Alam Bhuiyan, *Fordham University, USA*

Important Dates

Workshop/SS Proposal Due: Jun 30, 2024

Regular Paper Submission Due: Jun 25, 2024

WiP/Workshop/SS Paper Due: Jul 15, 2024

Authors Notification: Aug 25, 2024

Camera-ready Submission: Sep 15, 2024

As computer and communication systems, as well as other systems such as Cyber-Physical Systems (CPS), Internet of Things (IoT), and Autonomous Robotic Systems, become increasingly large and complex, their Dependability and Security play critical roles in supporting next-generation science, engineering, and commercial applications. It remains a challenge to design, analyze, evaluate, and improve the dependability and security of a large-scale computing environment. Trusted and autonomic computing/autonomous systems need synergistic research efforts covering many disciplines, from natural sciences to social sciences. It requires scientific and technological advances in a variety of fields, as well as new software, architectures, and communication technology that support the integration of the constituent technologies. DASC 2024 will be held during November 5-8, 2024, in Boracay Island, Malay, Philippines, co-located with CyberSciTech 2024, PICom 2024, and CBDCom 2024. It aims to bring together computer scientists, industrial engineers, and researchers to discuss and exchange theoretical and implementation results, novel designs, work-in-progress, experience, case studies, and trend-setting ideas in the areas of dependability, security, trust, and/or autonomic computing, and autonomous systems.

Tracks and Topics

Track 1: Dependable and Fault-tolerant Computing

Track 2: Network and System Security and Privacy

Track 3: Autonomic Computing and Autonomous Systems

Track 4: Industrial Applications and Emerging Techniques

Track 5: Autonomic and Secure Computing with AI/ML

Topics of interest include, but are not restricted to:

Self-Organization and Organic Computing; Cognitive Computing and Self-Aware Computing; Energy Management in Autonomic Computing and Autonomous Systems; Dependable & Fault-tolerant Computing in Big Data, CPS, IoT, SDN, and Real-time System; Hardware and Software Reliability, Verification and Testing; Security and Privacy in Cloud/Fog/Edge Computing, Mobile and Pervasive Computing, Big Data, CPS and IoT systems; Artificial Intelligence Techniques in Network and System Security and Privacy; Autonomic and Autonomous Issues in Cloud/Fog/Edge Computing, Mobile and Pervasive Computing, Big Data, CPS and IoT systems; Software/Apps/Tools Development for Dependable and Secure Applications; IoT and Sensor Network, Big Data, Smart Grid, Aerospace, Transportation Applications.

Submission Instructions

Authors are invited to submit their original research work that has not previously been submitted or published in any other venue. Regular, work-in-progress (WiP), workshop, and special session papers need to be submitted via the EDAS system.

All the accepted papers will be published in the Conference Proceedings (EI indexed). Best Paper Awards will be presented to high quality papers. Selected papers will be recommended to prestigious journal Special Issues.

Some papers originally submitted as full papers can be accepted as short papers during the review process. In such cases, the authors will need to reduce the paper accordingly when preparing the camera-ready version. At least one of the authors of any accepted paper is requested to register and present the paper at the conference.

Regular Tracks: **6-8** pages

WiP/Workshop/Special Session Tracks: **4-6** pages
