## **Organizing Committee**

### **Honorary Chairs**

Kouichi Sakurai, Kyushu University, Japan Zhiwen Yu, Harbin Engineering University, China Stephen S. Yau, Arizona State University, USA

### **General Chairs**

Bernady O. Apduhan, Kyushu Sangyo University, Japan Kuan-Ching Li, Providence University, Taiwan

### **General Executive Chairs**

Xiaokang Zhou, Shiga University, Japan Moayad Aloqaily, Mohamed Bin Zayed University, UAE Kanghyun Jo, University of Ulsan, Korea

### **Program Chairs**

Celimuge Wu, The Univ. of Electro-Comm., Japan Gautam Srivastava, Brandon University, Canada Klimis Ntalianis, Univ. of West Attica, Greece

## **Program Co-Chairs**

Yuji Suga, Internet Initiative Japan, Japan Francesco Pupo, University of Calabria, Italy Yan Huang, Kennesaw State University, USA Xiaokun Zhang, Athabasca University, Canada Zhi Liu, The Univ. of Electro-Comm., Japan Dongsik Jo. University of Ulsan. Korea

## **Workshop & Special Session Chairs**

Amjad Gawanmeh, University of Dubai, UAE Pan Wang, Univ. of Posts & Telecomm., China

### **Special Issue Chair**

Ke Yan, National University of Singapore, Singapore

### **International Liaison & Publicity Chairs**

Xiaohua Feng, University of Bedfordshire, UK Hongxin Yan, Athabasca University, Canada Lai Tu, Huazhong University of Sci. & Tech., China Hong Chen, Daiichi Institute of Technology, Japan Daehwan Kim, University of Ulsan, Korea Safa Otoum, Zayed University, UAE

#### **Publication Chair**

Ao Guo, Nagoya University, Japan

## **Steering Committee**

Jianhua Ma (Chair), Hosei University, Japan Hui-Huang Hsu, Tamkang University, Taiwan Qun Jin, Waseda University, Japan Laurence T. Yang, St. Francis Xavier University, Canada Jun Wang, University of Central Florida, USA Stephen S. Yau, Arizona State University, USA Mazin Yousif, T-Systems International, USA Albert Zomaya, The University of Sydney, Australia Kevin I-Kai Wang, The Univ. of Auckland, New Zealand Bernady O. Apduhan, Kyushu Sangyo Univ., Japan Oscar Lin, Athabasca University, Canada Giancarlo Fortino, University of Calabria, Italy Moayad Aloqaily, MBZUAI, UAE Frank Hsu, Fordham University, USA Jinhua She, Tokyo University of Technology, Japan

### **Advisory Committee**

Baoming Bai, Xidian University, China Julien Bourgeois, UBFC/FEMTO-ST INST/CNRS, France Raymond Choo, The Univ. of Texas at San Antonio, USA Zhong Chen, Peking University, China Tadashi Dohi, Hiroshima University, Japan Song Guo, Hong Kong Polytechnic University, Hong Kong Seungcheon Kim, Hansung University, Korea Keiichi Iwamura, The Tokyo University of Science, Japan Jianwei Liu, Beihang University, China Zhen Liu, Nagasaki Institute of Applied Science, Japan Huansheng Ning, Univ. of Sci. and Tech. Beijing, China Yi Pan, Georgia State University, USA Kouichi Sakurai, Kyushu University, Japan Zhou Su, Xi'an Jiaotong University, China Zhixin Sun, Minjiang University, China Nicolas Tsapatsoulis, Cyprus Univ. of Tech, Cyprus Feng Xia, RMIT University, Australia Jianwei Yin, Zhejiang University, China Yanchun Zhang, Victoria University, Australia Qiangfu Zhao, The University of Aizu, Japan

# **IMPORTANT DATES**

Qinggou Zhou, Lanzhou University, China

Workshop/SS Proposal Due: Apr. 15, 2024 Regular Paper Submission Due: Jun. 15, 2024 WiP/Workshop/SS Paper Due: Jul. 15, 2024 **Authors Notification:** Aug. 15, 2024 Sep. 15, 2024 **Camera-ready Submission:** 

# CyberSciTech 2024 The 9th IEEE Cyber Science and Technology Congress November 5 8, Boracay Island, Malay, Philippines http://cyber-science.org/2024/cyberscitech/

# Transforming the Future by Disruptive Cyber Technologies

Cyberspace, the seamless integration of physical, social, and mental spaces, is an integral part of our society, ranging from learning and entertainment to business and cultural activities, and so on. There are, however, a number of pressing challenges such as safety and trust associated with the cyberspace. For example, how do we strike a balance between the need for strong cybersecurity and preserving the privacy of ordinary citizens?

To address these challenges, there is a need to establish new science and research portfolios that incorporate cyber-physical, cyber-social, cyber-intelligent, and cyber-life technologies in a cohesive and efficient manner. This is the aim of the IEEE Cyber Science and Technology Congress (CyberSciTech). IEEE CyberSciTech has been successfully held in Auckland, New Zealand, in 2016, in Orlando, USA, in 2017, in Athens, Greece, in 2018, in Fukuoka, Japan, in 2019, in Calgary, Canada, in 2020 and 2021 (online due to COVID-19), in Calabria, Italy, in 2022, and in Abu Dhabi, UAE, in 2023.

In 2024, we will continue to offer IEEE CyberSciTech with the aim of providing a common platform for scientists, researchers, and engineers to share their latest ideas and advances in the broad scope of cyber-related science, technology, and application topics. In addition, this is also a platform to allow relevant stakeholders to get together, discuss and identify ongoing and emerging challenges, in order to understand and shape new cyberenabled worlds.

## **IEEE CyberSciTech 2024 Tracks and Topics**

### Track 1: Cyberspace Theory & Technology

- Cyberspace Property, Structure & Models
- ♦ Cyber Pattern, Evolution, Ecology & Science
- ♦ SDN/SDS, 5G/6G, Vehicle & Novel Network
- Cloud, Fog, Edge & Green Computing
- ♦ Big Data Analytics, Technology & Service
- ♦ Infrastructures for Smart City/Country

## **Track 3: Cyber Physical Computing & Systems**

- Cyber Physical Dynamics & Disaster Relief

- ♦ Autonomous Robots & Vehicles
- ♦ IoT, Digital Twin & Smart Systems

# Track 5: Cyber Intelligence & Cognitive Science

- ♦ Hybrid & Hyper-connected Intelligence
- ♦ Affective/Mind Cognition & Computing
- ♦ Brain/Mind Machine Interface
- Intelligent Multimedia Technology
- ♦ Intelligent Object, Environment & Service

## Track 2: Cyber Security, Privacy & Trust

- Cyber Security, Safety & Resilience
- Cyber Attack, Terrorism, Warfare & Defense
- Cyber Privacy, Trust & Insurance
- ♦ Blockchain, DLT Techniques & Applications
- ♦ Post-quantum Cryptography

### **Track 4: Cyber Social Computing & Networks**

- ♦ Social Networking & Computing
- ♦ Computational Social Science
- ♦ Crowd Sourcing, Sensing & Computing

- Cyber Learning, Economics & Politics

### Track 6: Cyber Life & Wellbeing

# 

- → Human/Animal Behavior Recognition
- ♦ Personal Big Data & Personality Computing
- → Augmented/Mixed Reality & Metaverse

## **CyberSciTech 2024 Submissions and Publications**

IEEE CyberSciTech 2024 calls for original papers, together with workshop and special session (SS) proposals, which focus on specific subjects related to cyber science and technology.

All accepted regular and work-in-progress (WiP) papers as well as workshop and SS papers will be published by IEEE in the Conference Proceedings (IEEE-DL and EI indexed). Selected high quality papers will be recommended to prestige journal special issues.

## **Three Co-located IEEE International Conferences**

- The 22nd IEEE Int'l Conf. on Dependable, Autonomic & Secure Computing (DASC 2024)
- The 22nd IEEE Int'l Conf. on Pervasive Intelligence and Computing (PICom 2024)
- The 10th IEEE Int'l Conf. on Cloud and Big Data Computing (CBDCom 2024)
